1.2 Job Postings Table

Posting 01

- Job title: Business Analyst/Quality Assurance Analyst
- Company: Vion Consultants, Inc
- Location: Remote (primarily remote; occasional on-site in Baltimore, MD)
- Platform (LinkedIn/Indeed/...): SimplyHired
- Posting date: 4 hours ago
- Job URL:
<https://www.simplyhired.com/job/sZlt5OX6ynl8dQqiHuvfhuxrGj2L6sjsjSvNIQHlxLn0TRQetvLm8g>
- Salary: From \$40.00 an hour
- Requires AI/LLM/automation-AI skills? (Y/N): Y (manual + automation QA context)

Job Description

Combined BA/QA role to maintain requirement traceability and validate IA/UX deliverables while leading manual testing, defect tracking, and migration/redirect validation.

Required Skills

Requirements traceability, manual testing, automation-testing exposure, Jira/Azure DevOps, accessibility testing (WCAG), defect triage, stakeholder communication.

AI Impact Analysis (1–2 sentences)

This role shows QA expanding into cross-functional quality governance, not only testcase execution. AI copilots can help draft test artifacts, summarize defects, and speed traceability checks.

Posting 02

- Job title: AI Chatbot Tester
- Company: Alignerr
- Location: Vietnam (Remote)
- Platform (LinkedIn/Indeed/...): LinkedIn
- Posting date: 4 days ago
- Job URL: <https://www.linkedin.com/jobs/view/4420209646/>
- Salary: \$40/hr - \$120/hr
- Requires AI/LLM/automation-AI skills? (Y/N): Y

Job Description

Evaluate AI chatbot responses for helpfulness, accuracy, tone, and safety; provide human feedback to improve model behavior.

Required Skills

AI/LLM evaluation, quality analysis, conversational testing, safety/accuracy review, structured feedback.

AI Impact Analysis (1–2 sentences)

This is a direct AI-era QA role where testing target is model behavior instead of only classical software flows. Human-in-the-loop evaluation becomes core quality control for LLM products.

Posting 03

- Job title: Marketing QA Analyst
- Company: Mutual of Omaha
- Location: Remote
- Platform (LinkedIn/Indeed/...): SimplyHired
- Posting date: 10d
- Job URL: <https://www.simplyhired.com/job/KddCc8sMwwLN4MqGnPHgyzWn7j4GU5OxO8lkaG0AF-HnpCDJBIIBLA>
- Salary: \$68,000 - \$97,000 a year
- Requires AI/LLM/automation-AI skills? (Y/N): N

Job Description

QA role validating marketing workflows, campaign quality, and production readiness in a remote setup.

Required Skills

Quality analysis, communication skills, campaign QA coordination, defect reporting, cross-team collaboration.

AI Impact Analysis (1–2 sentences)

Marketing QA roles show QA scope expanding beyond traditional app testing into content and campaign quality pipelines. AI can support faster anomaly detection and review prioritization.

Posting 04

- Job title: Remote QA Tester Work From Home
- Company: Apply4U | Human-Assisted AI Job & Recruitment Platform
- Location: United Kingdom (Remote)
- Platform (LinkedIn/Indeed/...): LinkedIn
- Posting date: 11 hours ago
- Job URL: <https://www.linkedin.com/jobs/view/4421658202/>
- Salary: £13/hr - £16/hr
- Requires AI/LLM/automation-AI skills? (Y/N): Y (AI-assisted platform context)

Job Description

Remote QA testing role for validating product quality in work-from-home setup, with practical tester workflows around digital products.

Required Skills

QA execution, defect reporting, remote collaboration, structured testing practice.

AI Impact Analysis (1–2 sentences)

Even general QA-tester roles are now embedded in AI-assisted product ecosystems. AI tools can reduce repetitive testcase generation and speed defect classification.

Posting 05

- Job title: Senior QA Analyst
- Company: Swift
- Location: Long Beach, CA (Remote-eligible US locations)
- Platform (LinkedIn/Indeed/...): SimplyHired
- Posting date: 9 days ago
- Job URL: https://www.simplyhired.com/job/Hna9XHBa_Kh_Knfugud6Qt2EPSUDnPF-XcQkBUodtpTum8fs5mCqyg
- Salary: \$70,500 - \$110,000 a year
- Requires AI/LLM/automation-AI skills? (Y/N): Y (automation/API/CI context)

Job Description

Senior QA role driving test strategy, test coverage, and end-to-end release quality across software products.

Required Skills

Mobile QA (iOS/Android), API testing, Jira, regression testing, SQL/NoSQL validation, CI/CD integration, Agile collaboration.

AI Impact Analysis (1–2 sentences)

Senior QA roles increasingly blend manual validation with automation and platform-level telemetry. AI copilots can speed root-cause analysis and reduce repetitive regression effort.

- Salary: \$10/hr - \$12/hr
- Requires AI/LLM/automation-AI skills? (Y/N): Y

Job Description

Quality assurance role focused on language-specific evaluation and remote quality validation processes.

Required Skills

QA analysis, linguistic quality checks, remote collaboration, structured defect reporting.

AI Impact Analysis (1–2 sentences)

Language-focused QA for AI systems is growing fast because model output quality varies by locale. Human evaluators provide nuance that automated checks still miss.

Job Description

Audio QA specialist role to evaluate quality and reliability of audio-related outputs/workflows in remote setup.

Required Skills

Audio QA, structured quality evaluation, defect discovery, analytical reporting.

AI Impact Analysis (1–2 sentences)

Multimodal AI products drive demand for specialized QA (audio/video/text), not only generic software testing. This role indicates QA specialization trend in AI-era job market.

2) Requirement 2 — 20 Software Defects (2022–2026) (20 pts)

2.1 Summary

- Total defects: **20/20**
- AI/LLM-related defects: **<count>** (must be **>= 5**)
- AI bias/hallucination analysis entries: **20/20** (one per defect)

2.2 Defects Table

Paste from **hw01-software-defects-table-template.md**

3) Requirement 3 — Test Cases for ONE Physical Product (40 pts)

3.1 Device Declaration

- Device type: **<fan/water-filter/rice-cooker/smart-bulb/...>**
- Brand: **<brand>**
- Model: **<model>**
- Year: **<year>**
- Serial number (masked middle 4 chars): **<AB12****89XY>**

3.2 Required Device Evidence

- Device photo + student ID in same frame: **<file path>**

3.3 Test Cases (15 total)

Paste from `hw01-physical-device-test-cases-template.md`

3.4 Test Execution Video Log (>=5)

Paste from `hw01-test-execution-video-log-template.md`

3.5 Device Defect Log (target >=5)

Paste from `hw01-device-defect-issue-log-template.md`

3.6 AI-missed Edge Cases (>=3 mandatory)

For each edge case AI missed, provide:

1. AI conversation screenshot proving AI did not generate it
2. Why AI likely missed it
3. Why it is critical for real-device QA

Edge Case ID	Test Case ID	AI Conversation Evidence	Why AI Missed It	Why It Matters
EC-01	TC-__	<link/screenshot>	<reason>	<impact>
EC-02	TC-__	<link/screenshot>	<reason>	<impact>
EC-03	TC-__	<link/screenshot>	<reason>	<impact>

4) CLO Mapping (G9.1, G9.3)

G9.1 — Understand

- Prompt AI tool for ISTQB-process mindmap
- Find and correct at least 3 mistakes
- Evidence file(s): <path>

G9.3 — Analyse

- Analyse AI-generated output and identify missing edge cases
- Evidence in Requirement 3.6

5) AI Critique (200–300 words, mandatory)

Write 200–300 words:

- Where AI was wrong / biased / incomplete
- Why AI failed
- Principles learned for collaborating with AI in this HW

<write your 200–300 words here>

6) Mandatory Disclosure (mandatory)

Use this exact block and edit placeholders:

"[Test cases / script / dataset / report] was initially generated by [AI tool name]; I reviewed and modified [section X], added [edge cases Y, Z]; [section W] was written entirely by me. The detailed AI Audit Report is attached as Appendix A. I confirm I did not use AI to generate any artifact listed in the prohibited category below."

7) Anti-Cheat Evidence Checklist

- ☐ Device photo with student-ID in same frame
- ☐ Execution videos contain your own voice narration
- ☐ All 10 job posting screenshots show your logged-in account/display name
- ☐ Prompt log `.md` with timestamps for every AI prompt

8) Self-Assessment (mandatory)

Paste from `hw01-self-assessment-template.md`

9) Appendix A — AI Audit Report

Paste entries from `ai-02-ai-audit-report-template.md`

10) Appendix B — Prompt Log

Paste from `hw01-prompt-log-template.md`

11) Appendix C — AI Disclosure Form

Paste from `ai-03-ai-disclosure-form-template.md`

12) Appendix D — AI Privacy & Responsible Use Checklist

Paste from `ai-05-ai-privacy-responsible-use-checklist-template.md`
